WARNING

The Web Affiliate Plan shows how 1000Club rewards Web Affiliates.
The financial results provided by this plan are not necessarily typical or average.

This plan does not represent or guarantee your personal results. Like any business opportunity, success largely depends on individual skill, motivation, and effort.

Results vary depending on the time, energy and dedication you put into your work.

Anyone considering web affiliation must understand the realities of affiliation. It's hard work, which requires consistency. There is no shortcut to wealth, no guaranteed success.

WARNING

The Web Affiliation Plan clearly rewards Web affiliates who regularly enroll quality members and provide them with assistance and support.

The opportunity for personal growth and an attractive part-time or full-time income exists for those who devote their time and energy to developing a stable network of clients.

Web affiliates who achieve sufficient results can apply for other promotional functions within 1000Club. They are automatically informed of this possibility.

Affiliates earn money from B.V.s generated by members who sign up from their website. They also earn money on the results of assigned or certified webmasters they have registered in 1000Club.
